VMware Player 12 Key

The screenshot displays a Windows desktop environment. On the left, a Command Prompt window titled "Command Prompt for vctl" is open, showing the help text for the 'vctl' CLI tool. The text includes highlights, usage instructions, a list of commands (build, create, describe, exec, execvm, help, images, ps, pull, push, rm, rmi, run, start, stop, system, tag, version), and options (-h, --help). On the right, the VMware Workstation application window is visible, showing the "Home" screen of the "WORKSTATION 20H2™ TECH PREVIEW" interface. A notification at the top indicates that the evaluation period ends in 114 days. The main interface features three large buttons: "Create a New Virtual Machine", "Open a Virtual Machine", and "Connect to a Remote Server", along with a "Leave Feedback" button. The VMware logo is visible in the bottom right corner of the application window. The Windows taskbar at the bottom shows the search bar and several application icons.
